

CF Machine Dishwash

(Granular Destain)

This product is a phosphate-free all-purpose granular dishwashing compound containing active oxygen for excellent soil and stain removal. Effective free rinsing agents allow spot free glasses and dishware.

It contains water softeners, protein and grease removers, and wetting agents.

This product may be used on aluminum.

DIRECTIONS: Use approximately 2 g/L of water (1/3 oz per gallon).

Commercial Use Only.
